Temporary Billing Suspension Policy

Responsibilities

Water and sewer service billing may be temporarily suspended at the property owner's request. The property owner must submit a completed Billing Suspension Form stating the date that the service is to be stopped, accompanied by payment of the current charges, and the Billing Suspension Fee. This fee is equal to 1 month of the water/sewer base rate.

The billing suspension fee in 2020 is \$120.31.

Upon receipt of the completed Billing Suspension form and fee, the meter will be locked and the billing will be suspended as of the date requested.

Procedure

1. Water service will be locked on the District's side of the meter on the date requested on the Billing Suspension form.
2. Billing will be suspended based upon the date that the service is locked.
3. One final bill for service will be mailed to the forwarding address provided on the billing suspension form. This bill will be pro-rated from the last billing date to the date the service was locked.
4. Please call the District's office at (360)734-9224 to give at least 24-hour's notice of your request to have water service restored. The District will unlock service between the hours of 8:00 a.m. and 5:00 p.m. Monday through Thursday. The District does not perform locks or unlocks on Fridays, weekends or holidays.

For Sewer Only Accounts

1. A one-time permit for a sewer plug and site inspection is required prior to the first billing suspension. This permit is \$250.00, which includes sewer inspection, processing, and sewer plug for customers with sewer-only accounts who wish to suspend their service.
2. Re-starting service for suspended sewer-only accounts:
 - a. Scheduled maintenance for plug removal is required.
 - b. Please call to request removal during normal business hours.
 - c. No other fees apply for this service.
