**BACKGROUND / EXPLANATION OF IMPACT**

The District is a special purpose district authorized under Title 57 Revised Code of Washington (RCW). The District is governed by five (5) commissioners who set the policies and rates of the District. The District is divided into five distinct *commissioner districts*; each represented by a resident elected from that commissioner district to serve a six-year term of office.

Redistricting is the process of redrawing district boundaries to adjust for population changes that occurred in the last decade. Every 10 years (following receipt of the federal decennial census data), the District goes through the redistricting process to create commissioner districts that are relatively equal in population to ensure all residents of the District have access to fair representation. Per [RCW 29A.76.010\(3\)](#), the District is required to “prepare a plan for redistricting its internal or director districts” by November 15, 2022. A number of factors, including the COVID-19 pandemic, delayed the U.S. Census Bureau’s release of population data specific to the District (data was originally scheduled to be released in Spring 2021). 2020 Census data was received in Fall 2021 and FLO Analytics (FLO) has been contracted to assist the District in completing the redistricting process within the statutory deadlines and requirements.

FLO has collected and compiled all data required to perform the demographic analysis. This includes the 2020 TIGER/Line shapefiles for Census tract, block group and block geographies, the 2020 P.L. 94-171 Redistricting Data shapefiles, and the 2020 P.L. 171 Redistrict Data summary files. FLO has since developed two initial commissioner district boundary options for review by the District. This includes development of option maps that comply with state, local, and federal legal requirements. Each option map includes accompanying demographic tables and a brief narrative description of the scenario. These options will be presented to the Board during the February 23, 2022, meeting to gain commissioner input.

**FISCAL IMPACT**

Project cost is \$5,000.
